About Temperance—The Republican Convention—Russian Racket—Free Tin Plate—Etc.

About Temperance.

WASHINGTON, February 10.—After listening to an argument from A. M. Powell, president of the National Temperance Society, the Senate committee on education, to-day, by a unanimous vote, instructed Senator Wilson, of Iowa, to report favorably a bill providing for the appointment of a commission of five persons, all of whom shall not be advocates of total abstinence, to investigate the alcoholic liquor traffic, its relations to revenue and taxation, and its general economic, criminal and moral and scientific aspects, in connection with pauperism, criminal and social vice, public health and general welfare of the people, and also to inquire and take testimony as to the practical results of license and prohibitory legislation for the prevention of intemperance in the several States of the Union.

C. T. Curry, president, and Owen Miller, vice-president, of the National League of Musicians, addressed the committee in support of the bill to prohibit army and navy bands from competing with civilian musicians.

An Artificial Earthquake.

WILKESBARRE, Pa., February 10.—At 10 o'clock this morning a severe shock was felt in this city. It was learned that a violent explosion had occurred at Dupont's powder works at Wapwallopen, twenty miles distant, and that four men had been killed. The explosion occurred in the packing house, where several tons of powder were stored. At Nanticoke and Wanamie, chimneys toppled from the roofs of buildings, and school children ran in terror from the schoolhouse. Men and women flocked towards the mines where they thought the explosion happened, and where members of their families were at work. At Shickshinny, the glass in almost every window was broken and many persons were thrown to the ground. At Wapwallopen nearly every building was damaged or wrecked. Besides those killed, over forty persons were injured, fourteen of whom it is said will die.

The Republican Convention.

CHICAGO, February 10.—The subcommittee of the Republican national committee, this morning elected General Fitz Simmons, of Chicago, sergeant-at-arms of the national convention. The Grand Pacific was selected as the permanent headquarters of the national committee. The committee took a look at the Auditorium building, and were apparently satisfied that the vast edifice would be ready for the convention. They will arrange about admissions this afternoon, before the final adjournment.

Russian Racket.

ST. PETERSBURG, February 10.—The Odessa University has been reopened. The university at Kazan is now the only one in Russia that remains closed. The *travshdanin* states that it is informed on trustworthy authority that there is no ground to apprehend war. A verbatim report of Prince Bismarck's speech published here, has produced a much deeper impression than did the telegraphic summary at first received.

Free Tin Plate.

ST. LOUIS, February 10.—The Western Canned Goods Association, at its annual meeting here, passed resolutions providing for the preparation of a memorial to Congress asking for the removal of the import duty on tin plate, thus placing canned goods in reach of all classes of people. It was agreed that the association should restrict production during the year to the limits of their contracts, so as to not have any surplus stock.

International Arbitration.

WASHINGTON, February 10.—Dorman B. Eaton, Andrew Carnegie, David Dudley Field and Charles A. Peabody were this morning heard by the Senate committee on foreign relations in favor of the bill providing for the settlement of international disputes by arbitration. This afternoon the House committee on foreign affairs gave them a hearing on the same subject.

Hanged.

HELENA, Mont., February 10.—Patrick John Hart was hanged at 11:30 today. The crime for which he was executed was the killing of John Pitts, stepfather of his sweetheart, on November 7th, 1885. Pitts had circulated false stories about Hart, and on the day of the murder had gone to Boulder, to secure his arrest for the alleged seduction of his daughter.

Is Consumption Incurable?

Read the following: Mr. G. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jessie Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at A. C. Smith & Co's, Drug Store.

Happiness and Health

Are important problems, the former depending greatly on the latter. Every one is familiar with the healthy properties of fruit, and no one can afford to be sick and miserable while the pleasant California concentrated liquid fruit remedy, Syrup of Figs, may be had of our enterprising druggists, A. C. Smith & Co.
